Facts about Euro Fair Statistics

The 2003 edition contains the audited statistics of 1,499 trade fairs and exibitions from 19 countries, including

Austria 32	Hungary 28	Slovenia 1
Croatia 14	Italy 151	Spain 421
Czech Republic 58	Norway 6	Sweden 74
Denmark 16	Poland 65	Switzerland 15
Finland 94	Portugal 58	Ukraine 20
France 147	Romania 1	
Germany 276	Slovak Republic 22	

At these trade fairs a total of 521,000 exhibitors, 51 million visitors and 2,2 million sq.m. rented space were registered. 45 % of the trade fairs address themselves to trade visitors, 30 % to private visitors and 25 % to both target groups.

The UFI – The Global Association of the Exhibition Industry estimates that all trade fairs in Europe have around 1,5 million exhibitors and 160 million visitors. That means that the audited trade fairs presenting detailed figures in Euro Fair Statistics, represent one third of the European trade fair market.

Foreword

Matthias Limbeck President of FKM-Austria

Thomas Jermiin Director of the Danish Audit Bureau of Exhibitions and Fairs, Denmark

Lennart Mankert President of SFC, Denmark, Norway, Sweden

The economic relations between the individual European nations are becoming more intense year by year. As a result there is an increasing need for information about the economies of other countries. Because trade fairs and exhibitions play a very important role in external trade, companies and associations have a keen interest in reliable information about foreign trade fairs. This report's aim is to satisfy this need. It includes audited and comparable statistical data for about 1.499 events in Austria, Croatia, the Czech Republic, Denmark, Finland, France, Germany, Hungary, Italy, Norway, Poland, Portugal, Romania, the Slovak Republic, Slovenia, Spain, Sweden, Switzerland and Ukraine. Thus the auditing-organizations from the countries involved wish to make a contribution to making trade fair planning at an international level simpler and more rational. In the next few years they intend to include further countries in which the trade fair statistics will also be audited.

The statistics listed in this report were audited in Austria, Croatia, the Czech Republic, France, Germany, Hungary, Norway, Poland, Portugal, Romania, the Slovak Republic, Slovenia, Spain, Sweden and Ukraine by independent public accountants, in Denmark and Finland by independent auditing-companies, in Italy by the Committee of the Conference of Italian Regions and Autonomous Provinces, in Switzerland by the Swiss Office for Trade Promotion. The figures which have been reproduced on the following pages in the respective columns have been collected in the individual countries according to practically identical criteria. Differences can be seen in the definitions of the exhibitor, space and visitor figures.

Comprehensive statistical material and further information about the individual events can be obtained from the respective auditing-organizations. In addition to this report which is intended to provide an initial review, they publish their own reports in the native languages and further translated versions.

The figures listed in this report are under control of:

Locations

Locations

FKM-Austria

Space

The total rented space of an event is based on the amount of space rented by the individual exhibitors. The amount of rented space is divided into hall areas and open-air areas, and is also differentiated between domestic and foreign exhibitors.

Exhibitors

Exhibitor figures are compiled as the number of companies who have rented an individual stand and who use their own personnel to promote goods or services. Represented firms are companies whose goods or services are offered by another exhibitor. The number of exhibitors may not be added to the number of represented firms.

Visitors

Visitor figures are based on the amount of entrance tickets sold. Season tickets are counted once irre-spective of the number of times used. Complimenta-ry tickets, exhibitor tickets, press tickets, etc. have not been taken into consideration.

Foreign visitors' totals are minimum figures based, for example, from their purchasing tickets at specified cashiers and specified reception areas. In other cases, these figures have been determined by representative sampling.

SFC, Denmark/Norway/Sweden / DO, Denmark / FUTFO/Finland

Exhibitors Visitors Space An exhibitor with his own stand (direct exhibitor) is The total rented space of an event refers to the area The number of visitors is the sum of paid entrees, inused by and paid for by the exhibitors. A one who has obtained a contract for an exhibition vitation cards used, and other used tickets which can distinction is made between hall space and openstand in its entirety, or who uses a specified, clearly have been obtained by conference visitors who have delineated portion of an exhibition stand using his had access to the trade fair grounds. A visitor who air space. Areas given free of charge to exhibitors own personnel to promote goods or services. visits a trade fair over a period of many days is are not counted. Exhibitor, press, service and products or services are offered through a direct expersonnel cards and passes are not counted. hibitor. The number of exhibitors whith their own

stands may not be added to the number of repre-

sented firms, exept when evident.

OJS, France

Space

The rented space refers only to the area occupied by direct exhibitors (exhibitors with their own stands). It corresponds to the number of square metres invoiced and paid for by these exhibitors. Surface areas given free of charge are not counted.

Exhibitors

An exhibitor with his own stand (direct exhibitor) is one who occupies a stand for his company, receives the bill from the exhibition organizer and settles it directly. A represented firm (indirect exhibitor) is one who does not have a stand of his own, but presents his products on a stand of a direct exhibitor.

Visitors

Any person entering a commercial event who presents either a ticket or a card proving payment on the entrance fee, or an invitation card with a numbered control slip is considered as a visitor. The exhibition organizer must issue control cards or slips giving the identity of foreign visitors. Unidentified visitors admitted free of charge are not taken into account. Honorary cards, exhibitors, press and all administration passes are not counted.

FKM, Germany/FKM-Suisse

Space

The total rented space of an event is based on the amount of space rented by the individual exhibitors. The amount of rented space is divided into hall areas and open-air areas, and is also differentiated between domestic and foreign exhibitors.

Exhibitors

Exhibitor figures are compiled as the number of companies who have rented an individual stand and who use their own personnel to promote goods or services. Represented firms are companies whose goods or services are offered by another exhibitor. The number of exhibitors may not be added to the number of represented firms.

Visitors

The visitor figures are calculated according to the number of admissions to the trade fair centre. The number of admissions per day can, on the one hand, be determined by an electronic visitor admission system, whereby a maximum of one admission is registered per day. Organizers which do not use such a system, can calculate the number of visitors according to the number of day tickets sold and the minimum use of multiple-day tickets sold; it is assumed that such tickets are used at least as often as is economically worthwhile in comparison to the day ticket. Basis for establishing the number of visitors can also be a registration, irrespective of whether an entrance fee has to be paid or not. In such cases, the number of admissions can be determined by a visitor-admission-system or - if an entrance fee has to

be paid - by the minimal use of the tickets sold.

CENTREX: Czech Republic, Hungary, Poland, Romania, Slovak Republic, Ukraine

Space

Exhibitors

The rented space refers only to the area occupied by direct exhibitors (exhibitors with their own stands). It corresponds to the number of square metres invoiced and paid for by these exhibitors. Surface areas given free of charge are not counted. The space is divided up in hall space and open-air space and in area rented by exhibitors. The total space data includes the special demonstration area as well. An exhibitor with his own stand (direct exhibitor) is one who occupies a stand for his company receives the bill from the exhibition organiser and settles it directly.

A represented firm (indirect exhibitor) ist one who does not have a stand of his own, but presents his products on a stand of a direct exhibitor.

Co-exhibitors at an exhibitor's stand or participants at a collective stand are also considered as exhibitors for statistical purposes if they exhibit their own goods employing their own personnel on the exhibitor's stand or at a common stand organised by a collective stand organiser and their autonomy can be undoubtedly recognised even without physical separation. These companies are considered as exhibitors regardless that the invoice is being issued on the exhibitor or on a collective stand organiser. The nature of the participation and the identity of each exhibitor at the stand should be undoubtedly clear from the application form sent to the exhibition organiser.

Visitors

The number of visitors is calculated on evidence. The number of paying visitors is established through financial evidence: number of sold tickets (prepaid or on the spot) and number of tickets/entry passes paid by the exhibitor or a third party. Visitors with season tickets are calculated as financially reasonable minimum number of use of the tickets. Number of family tickets sold are calculated as 4 visitors. Persons arriving with vouchers, registration cards or similar valid free passes, tickets can be counted as visitors only if evidence is available.

The number of foreign visitors is established either by tickets sold out at special counters for foreigners, filled-in-registration cards with evidence of the foreign origin of the visitor or through representative visitor surveys.

Inter-Regional Trade Fair Coordination Comm	nittee, Italy	
Space	Exhibitors	Visitors
The rented space of a fair is the area effectively oc- cupied by the exhibitors, invoiced and paid at the official price. The space is divided up in hall space and open-air space and in area rented by Italian and foreign exhibitors. Areas given free of charge to private exhibitors are not counted.	An exhibitor with his own stand (direct exhibitor) is one who occupies a stand for his company, receives the invoice and pays it. Exhibitor figures are divided up in Italian and foreign exhibitors. A represented firm (indirect exhibitor) does not have a stand of his own, but is present in the stand of a direct exhibitor. He cannot be considered, if he does not pay the offical fee for the participation.	Any person entering a trade fair presenting a ticket or a card proving payment of the entrance fee, or an invitation card with a control slip is considered as a visitor. Visitors admitted free of charge are counted only, if they give elements for their qualification and identification. Foreign visitors are counted only, if their identification is possible. Honorary cards, exhibitor, press and service cards and passes are not counted.

Permanent cards are counted only once.

10

BDO Binder & Co., Portugal

Space

Obligatorily, the hall space must be distinguished from the open-air space, always using the square meter (m2) as unit of measure. Rented space should still be decomposed into national and foreign exhibitions. Surfaces granted free of charge and/or supporting activities – restaurants, conferences, shows, circulations and parking should not be considered on the statistics.

Exhibitors

Exhibitors

Obligatorily, the exhibitors should be separated into direct and indirect exhibitors. These should also be subdivided between national and foreign. An exhibitor is considered direct if he occupies an area rented by himself for display of his products or services. If a representative presents his products in modules of a direct exhibitor, he is classified as an indirect exhibitor (represented firm).

In the particular case of the occupied area by the indirect exhibitor being of 9 m² at least, this one will be considered as direct. The localization of the exhibitor's office determines his classification as national of foreign.

Visitors

A distinction between national and foreign visitors must be done. Foreign visitors should be identified through registration and control of their personal identification cards showing their adress. Non-identified and non-controlled visitors admitted free of charge should not be considered on the statistics as well as, for example, those bearing press cards and, in a general way, all bearing administration passes.

AFE – Spanish Trade Fair Association, Spain

	а		

The amount of exhibition space let is divided into hall areas and open-air areas, and is also differentiated between Spanish and foreign exhibitors. Special shows include stands, displays and demonstrations which deal with the general concept, or specific themes, of an exhibition but are independent of the exhibitors.

Gross exhibition space comprises the net exhibition space and the related gangways and service areas.

Direct exhibitor: Exhibitors occupying own stands receive bills from the exhibition organiser which are settled directly. Indirect exhibitor (or firm represent– ed): Exhibitors which do not have own stands, but present products on direct–exhibitor stands. In the case of group or collective participation, the different exhibitors are considered direct where they occupy an area of at least 9 m². Exhibitors occupying a space of less than 9 m² are considered indirect.

Visitors

Identified visitors: At the entrance of the exhibition these visitors must show a card or numbered slip showing their identification. The number of these visitors is determined according to the number of completed cards or slips. Season tickets are counted once, irrespective of the number of times used. The number of visitors buying their tickets on entry to the exhibition corresponds to the number of tickets sold with proof of the corresponding receipt.
