Facts about Euro Fair Statistics

The 2004 edition contains the audited statistics of 1,415 trade fairs and exhibitions from 18 countries, including

Austria 35	Hungary 24	Spain 323
Croatia 26	Italy 161	Sweden 66
Czech Republic 81	Poland 67	Switzerland 9
Denmark 14	Portugal 52	Ukraine 33
Finland 86	Romania 2	
France 126	Slovak Republic 34	
Germany 274	Slovenia 2	

At these trade fairs a total of 512.000 exhibitors, 49,5 million visitors and 21,5 million sq.m. rented space were registered. 45 % of the trade fairs address themselves to trade visitors, 30 % to private visitors and 25 % to both target groups.

The UFI – The Global Association of the Exhibition Industry estimates that all trade fairs in Europe have around 1,5 million exhibitors and 160 million visitors. That means that the audited trade fairs presenting detailed figures in Euro Fair Statistics, represent one third of the European trade fair market.

Switzerland

The economic relations between the individual European nations are becoming more intense year by year. As a result there is an increasing need for information about the economies of other countries. Because trade fairs and exhibitions play a very important role in external trade, companies and associations have a keen interest in reliable information about foreign trade fairs. This report's aim is to satisfy this need. It includes audited and comparable statistical data for about 1.415 events in Austria, Croatia, the Czech Republic, Denmark, Finland, France, Germany, Hungary, Italy, Poland, Portugal, Romania, the Slovak Republic, Slovenia, Spain, Sweden, Switzerland and Ukraine. Thus the auditing-organizations from the countries involved wish to make a contribution to making trade fair planning at an international level simpler and more rational. In the next few years they intend to include further countries in which the trade fair statistics will also be audited.

The statistics listed in this report were audited in Austria, Croatia, the Czech Republic, France, Germany, Hungary, Poland, Portugal, Romania, the Slovak Republic, Slovenia, Spain, Sweden and Ukraine by independent public accountants, in Denmark and Finland by independent auditing-companies, in Italy by the Committee of the Conference of Italian Regions and Autonomous Provinces, in Switzerland by the Swiss Office for Trade Promotion. The figures which have been reproduced on the following pages have been collected in the individual countries according to practically identical criteria. Differences can be seen in the definitions of the exhibitor, space and visitor figures.

Comprehensive statistical material and further information about the individual events can be obtained from the respective auditing-organizations. In addition to this report which is intended to provide an initial review, they publish their own reports in the native languages and further translated versions.

The figures listed in this report are under control of:

FKM-Austria

Space	Exhibitors	Visitors
The total rented space of an event is based on the amount of space rented by the individual exhibitors. The amount of rented space is divided into hall areas and open-air areas, and is also differentiated between domestic and foreign exhibitors.	Exhibitor figures are compiled as the number of companies who have rented an individual stand and who use their own personnel to promote goods or services. Represented firms are companies whose goods or services are offered by another exhibitor. The number of exhibitors may not be added to the number of represented firms.	Visitor figures are based on the amount of entrance tickets sold. Season tickets are counted once irrespective of the number of times used. Complimentary tickets, exhibitor tickets, press tickets, etc. have not been taken into consideration. Foreign visitors' totals are minimum figures based, for example, from their purchasing tickets at specified cashiers and specified reception areas. In other cases, these figures have been determined by representative sampling.

SFC, Denmark/Norway/Sweden / DO, Denmark / FUTFO/Finland

Space	Exhibitors	Visitors
The total rented space of an event refers to the area used by and paid for by the exhibitors. A distinction is made between hall space and open-air space. Areas given free of charge to exhibitors are not counted.	An exhibitor with his own stand (direct exhibitor) is one who has obtained a contract for an exhibition stand in its entirety, or who uses a specified, clearly delineated portion of an exhibition stand using his own personnel to promote goods or services. A represented firm (indirect exhibitor) is one whose products or services are offered through a direct exhibitor. The number of exhibitors with their own stands may not be added to the number of represented firms, except when evident.	The number of visitors is the sum of paid entrees, invitation cards used, and other used tickets which can have been obtained by conference visitors who have had access to the trade fair grounds. A visitor who visits a trade fair over a period of many days is counted once a day. Exhibitor, press, service and personnel cards and passes are not counted.

Definitions

OJS, France

Space	Exhibitors	Visitors
The rented space refers only to the area occupied by direct exhibitors (exhibitors with their own stands). It corresponds to the number of square metres invoiced and paid for by these exhibitors. Surface areas given free of charge are not counted.	An exhibitor with his own stand (direct exhibitor) is one who occupies a stand for his company, receives the bill from the exhibition organizer and settles it directly. A represented firm (indirect exhibitor) is one who does not have a stand of his own, but presents his products on a stand of a direct exhibitor.	Any person entering a commercial event who presents either a ticket or a card proving payment on the entrance fee, or an invitation card with a numbered control slip is considered as a visitor. The exhibition organizer must issue control cards or slips giving the identity of foreign visitors. Unidentified visitors admitted free of charge are not taken into account. Honorary cards, exhibitors, press and all administration passes are not counted.

FKM, Germany/FKM-Suisse

Space	Exhibitors	Visitors
The total rented space of an event is based on the amount of space rented by the individual exhibitors. The amount of rented space is divided into hall areas and open-air areas, and is also differentiated between domestic and foreign exhibitors.	Exhibitor figures are compiled as the number of companies who have rented an individual stand and who use their own personnel to promote goods or services. Represented firms are companies whose goods or services are offered by another exhibitor. The number of exhibitors may not be added to the number of represented firms.	The visitor figures are calculated according to the number of admissions to the trade fair centre. The number of admissions per day can, on the one hand, be determined by an electronic visitor admission system, whereby a maximum of one admission is registered per day. Organizers which do not use such a system, can calculate the number of visitors according to the number of day tickets sold and the minimum use of multiple-day tickets sold; it is assumed that such tickets are used at least as often as is economically worthwhile in comparison to the day ticket. Basis for establishing the number of visitors can also be a registration, irrespective of whether an entrance fee has to be paid or not. In such cases, the number of admissions can be determined by a visitor-admission-system or – if an entrance fee has to be paid – by the minimal use of the tickets sold.

Definitions

CENTREX: Czech Republic, Hungary, Poland, Romania, Slovak Republic, Ukraine

Space	Exhibitors	Visitors
The rented space is divided up in hall space and open-air space which is rented and paid up by exhibitors. The total space data includes the special demonstration area as well.	An exhibitor with his own stand (direct exhibitor) is one who occupies a stand for his company receives the bill from the exhibition organiser and settles it directly. A represented firm (indirect exhibitor) is one who does not have a stand of his own, but presents his products on a stand of a direct exhibitor. Co-exhibitors at an exhibitor's stand or participants at a collective stand are also considered as exhibitors for statistical purposes if they exhibit their own goods employing their own personnel on the exhibitor's stand or at a common stand organised by a collective stand organiser and their autonomy can be undoubtedly recognised even without physical separation. These companies are considered as exhibitors regardless that the invoice is being issued on the exhibitor or on a collective stand organiser. The nature of the participation and the identity of each exhibitor at the stand should be undoubtedly clear from the application form sent to the exhibition organiser.	The number of visitors is calculated on evidence. The number of paying visitors is established through financial evidence: number of sold tickets (prepaid or on the spot) and number of tickets/entry passes paid by the exhibitor or a third party. Visitors with season tickets are calculated as financially reasonable minimum number of use of the tickets. Number of family tickets sold are calculated as 4 visitors. Persons arriving with vouchers, registration cards or similar valid free passes, tickets can be counted as visitors only if evidence is available. The number of foreign visitors is established either by tickets sold out at special counters for foreigners, filled-in-registration cards with evidence of the foreign origin of the visitor or through representative visitor surveys.

Inter-Regional Trade Fair Coordination Committee, Italy

Space	Exhibitors	Visitors
The rented space of a fair is the area effectively occupied by the exhibitors, invoiced and paid at the official price. The space is divided up in hall space and open-air space and in area rented by Italian and foreign exhibitors. Areas given free of charge to private exhibitors are not counted.	An exhibitor with his own stand (direct exhibitor) is one who occupies a stand for his company, receives the invoice and pays it. Exhibitor figures are divided up in Italian and foreign exhibitors. A represented firm (indirect exhibitor) does not have a stand of his own, but is present in the stand of a direct exhibitor. He cannot be considered, if he does not pay the official fee for the participation.	Any person entering a trade fair presenting a ticket or a card proving payment of the entrance fee, or an invitation card with a control slip is considered as a visitor. Visitors admitted free of charge are counted only, if they give elements for their qualification and identification. Foreign visitors are counted only, if their identification is possible. Honorary cards, exhibitor, press and service cards and passes are not counted. Permanent cards are counted only once.

Definitions

BDO Binder & Co., Portugal

Space	Exhibitors	Visitors
Obligatorily, the hall space must be distinguished from the open-air space, always using the square meter (m ²) as unit of measure. Rented space should still be decomposed into national and foreign exhibitions. Surfaces granted free of charge and/or supporting activities – restaurants, conferences, shows, circulations and parking should not be considered on the statistics.	Obligatorily, the exhibitors should be separated into direct and indirect exhibitors. These should also be subdivided between national and foreign. An exhibitor is considered direct if he occupies an area rented by himself for display of his products or services. If a representative presents his products in modules of a direct exhibitor, he is classified as an indirect exhibitor (represented firm). In the particular case of the occupied area by the indirect exhibitor being of 9 m ² at least, this one will be considered as direct. The localization of the exhibitor's office determines his classification as national or foreign.	A distinction between national and foreign visitors must be done. Foreign visitors should be identified through registration and control of their personal identification cards showing their address. Non-identified and non-controlled visitors admitted free of charge should not be considered on the statistics as well as, for example, those bearing press cards and, in a general way, all bearing administration passes.

AFE – Spanish Trade Fair Association, Spain

Space	Exhibitors	Visitors
The amount of exhibition space let is divided into hall areas and open-air areas, and is also differentiated between Spanish and foreign exhibitors. Special shows include stands, displays and demonstrations which deal with the general concept, or specific themes, of an exhibition but are independent of the exhibitors. Gross exhibition space comprises the net exhibition space and the related gangways and service areas.	Direct exhibitor: Exhibitors occupying own stands receive bills from the exhibition organiser which are settled directly. Indirect exhibitor (or firm represented): Exhibitors which do not have own stands, but present products on direct-exhibitor stands. In the case of group or collective participation, the different exhibitors are considered direct where they occupy an area of at least 9 m ² . Exhibitors occupying a space of less than 9 m ² are considered indirect.	Identified visitors: At the entrance of the exhibition these visitors must show a card or numbered slip showing their identification. The number of these visitors is determined according to the number of completed cards or slips. Season tickets are counted once, irrespective of the number of times used. The number of visitors buying their tickets on entry to the exhibition corresponds to the number of tickets sold with proof of the corresponding receipt.
