UFI MESSAGE

UFI, the Global Association of the Exhibition Industry, has been responsible for producing this report for the fourth year. Our goal is continuously to develop the project and several steps were taken this year: in terms of geographical coverage for instance, Turkey is now part of the report. The indication of the "industry sector" for all events for both 2010 and 2011 now means that interesting metrics will soon be produced by UFI, on a 2 year basis, in order to take into account biennial events. Trends at both regional and global levels will also be developed using the data from this report. Finally UFI approved events (*) are now identified in this report.

Due to the different levels of development and global diversity, methods may vary slightly from one country to another and the data presented in this report remains the sole responsibility of each respective national body.

UFI strongly believes that auditing should, wherever possible, be done in a consistent manner to make figures comparable. This enables exhibition organizers to manage exhibitor expectations in terms of attendees from one country to another and allows exhibitors and visitors to make their trade fair decisions based on accurate information. UFI continues to play an important role in developing a basic minimum standard for the industry (including the publication and implementation of "UFI's Auditing Rules") and thank all our partners around the world for their contribution to this.

If you have any questions or comments, please contact Christian Druart on research@ufi.org.

Paris, July 2012

() The "UFI Approved" label is granted to an international exhibition organized by a UFI Member who makes the request to UFI and who complies to the specific criteria applied. 884 exhibitions worldwide had this recognition in 2011.*

DEFINITIONS

AFE Spanish Trade Fair Association (Spain)

Space

The amount of exhibition space let is divided into hall areas and open-air areas, and is also differentiated between Spanish and foreign exhibitors. Special shows include stands, displays and demonstrations which deal with the general concept, or specific themes, of an exhibition but are independent of the exhibitors. Gross exhibition space comprises the net exhibition space and the related gangways and service areas.

Exhibitors

Direct exhibitors: Exhibitors occupying their own stands who receive bills from the exhibition organiser which are settled directly. Indirect exhibitors (or firms represented): Exhibitors which do not have own stands, but present products on direct-exhibitor stands. In the case of group or collective participation, the different exhibitors are considered direct where they occupy an area of at least 9 m². Exhibitors occupying a space of less than 9 m² are considered indirect.

Visitors

Identified visitors: At the entrance of the exhibition these visitors must show a card or numbered slip showing their identification. The number of these visitors is determined according to the number of completed cards or slips. Season tickets are counted once, irrespective of the number of times used. The number of visitors buying their tickets on entry to the exhibition corresponds to the number of tickets sold with proof of the corresponding receipt.

BDO & Associates (Portugal)

Space

The total rented space includes both hall space and open-air space contracted by the exhibitors, whether it is paid or unpaid, and it corresponds to the number of square meters effectively occupied by them. The rented space is divided into national and foreign in accordance with the exhibitor classification.

Exhibitors

The main exhibitor is the entity contracting directly with the organizer. Co-exhibitor is the entity which presents its products/services on the main exhibitor's stand with its own staff. A represented company is one who is not present with their own staff, and whose products or services are present on a main exhibitor's or co-exhibitor's stand. These represented companies are excluded from the calculation of the total number of exhibitors.

Visitors

Any person entering the fair/trade show during its official opening hours who presents at control access either a ticket or a card proving payment on the entrance fee or an invitation card is considered as visitor. Visitors exclude the staff of exhibitors, services providers and organizers. The visitor whose address is located in another European or Third country is considered as foreign visitor. An additional visit, to be verified as made on a different day from the first visit is considered as a repeat visit. The figures presented in the Euro Fair Statistics brochure concern the number of total visits: total number of visitors plus the total number of repeat visits.

CENTREX (Bulgaria , Czech Republic, Hungary, Poland, Romania, Slovak Republic & Ukraine)

Space

The rented space is divided up in hall space and open-air space which is rented and paid for by exhibitors. The total space data also includes the special demonstration area.

A represented firm (indirect exhibitor) is one who does not have a stand of his own, but presents his products on a stand of a direct exhibitor. Co-exhibitors at an exhibitor's stand or participants at a collective stand are also considered as exhibitors for statistical purposes if they exhibit their own goods employing their own personnel on the exhibitor's stand or at a common stand organised by a collective stand organiser and their autonomy can be undoubtedly recognized even without physical separation. These companies are considered as exhibitors regardless that the invoice is being issued on the exhibitor or on a collective stand organiser. The nature of the participation and the identity of each exhibitor at the stand should be very clear from the application form sent to the exhibition organizer.

Visitors

The number of visitors is calculated on evidence. The number of paying visitors is established through financial evidence: number of sold tickets (prepaid or on the spot) and number of tickets/entry passes paid by the exhibitor or a third party. Visitors with paid passes for a given period are calculated on the basis of a financially reasonable minimum number of uses of the pass. 4 visitors are counted for each family ticket sold. For persons arriving with vouchers, registration cards or similar valid free passes, tickets can be counted as visitors only if evidence is available.

The number of foreign visitors is established either by tickets sold at special counters for foreigners, filled in-registration cards with evidence of the foreign origin of the visitor or through representative visitor surveys.
