(*) Only events that could show a minimum set of data were taken into consideration.

At all these events, organized by 920 organisers, 642,831 exhibitors and 53.8 million visits were registered. 40% of the exhibitions were addressed to trade visitors, 30% to public visitors and 30% to both target groups.

23.1 million square metres of rented space were registered - UFI estimates that those certified events present in this report represents, in 2024, almost 55% of the European exhibition market in terms of net space rented – and the breakdown of those events by industry sector (provided by each partner) is presented in the table on the right. As 7% of all events had more than one industry sector mentioned, the cumulated % of the number of events reaches 109%.

UFI MESSAGE

UFI, The Global Association of the Exhibition Industry, is happy to present the fifteenth edition of this report.

Due to the different levels of development and global diversity, methods may vary slightly from country to country, but all the national bodies that have taken part in this study guarantee the quality of the statistics they have provided. Since the 2012 edition of this report, those statistics relate to certified data, in addition to audited data.

This year, the participating national bodies were also asked to specify whether the reported figures referred to visitors or to visits.

UFI strongly believes that auditing should, wherever possible, be done in a consistent manner to make figures comparable. As such, audited events are identified in this report with the name of the auditor.

UFI continues to play an important role in developing a basic minimum standard for the industry, including the publication and implementation of [“UFI’s Auditing Rules for UFI Approved Events”](#). The latter are identified in the report (*).

If you have any questions or comments, please contact research@ufi.org.

Paris, October 2025

Chris Skeith OBE
UFI Managing Director / CEO

DEFINITIONS

AFE Spanish Trade Fair Association (Spain)

Space

The exhibition space is divided into indoor and outdoor areas and it is also divided into total and foreign exhibitors. "Other participations" include special exhibitions and demonstrations related to the theme of the exhibition but it is independent of the exhibitors' area. All those figures are globally considered as net exhibition space.

Exhibitors

Direct exhibitors: Exhibitors who occupy their own stands and receive and pay directly the invoices of the organiser of the exhibition. Indirect exhibitors (or represented firms): Exhibitors who do not have their own stands but present their products in stands of direct exhibitors. In the case of collective or grouped participation, the different exhibitors are considered direct when they occupy an area of at least 9 m2. Exhibitors occupying less than 9 m2 are considered indirect.

We divide into total and foreign exhibitors.

Visitors

Identified visitors: number of visitors (visits) who go into the exhibition and whose data are managed and kept by the organiser.

Other tickets: these figures include sold tickets and controlled invitations that allow the access to the exhibition and their use can be verified. Total visitors are the identified visitors plus other tickets.

We divide into total and foreign visitors.

BDO & Associados (Portugal)

Space

The total rented space includes both hall space and open-air space contracted by the exhibitors, whether it is paid or unpaid, and it corresponds to the number of square meters effectively occupied by them.

The rented space is divided into national and foreign in accordance with the exhibitor classification.

Exhibitors

The main exhibitor is the entity contracting directly with the organiser.

Co-exhibitor is the entity which presents its products/services on the main exhibitor's stand with its own staff.

A represented company is one who is not present with their own staff, and whose products or services are present on a main exhibitor's or co-exhibitor's stand. These represented companies are excluded from the calculation of the total number of exhibitors.

Visitors

Any person entering the fair/trade show during its official opening hours who presents at control access either a ticket or a card proving payment on the entrance fee or an invitation card is considered as visitor. Visitors exclude the staff of exhibitors, services providers and organisers.

The visitor whose address is located in another European or Third country is considered as foreign visitor. An additional visit, to be verified as made on a different day from the first visit is considered as a repeat visit.

The figures presented in the Euro Fair Statistics brochure concern the number of total visits: total number of visitors plus the total number of repeat visits.

DEFINITIONS

CENTREX (Bulgaria, Czech Republic, Hungary and Poland)

Space

The rented space is divided up in hall space and open-air space which is rented / contracted by exhibitors. International incorporates space rented by foreign and multinational companies.

Exhibitors

An exhibitor with his own stand (direct exhibitor) is one who occupies a stand for his company receives the bill from the exhibition organiser and settles it directly. A represented firm (indirect exhibitor) is one who does not have a stand of his own, but presents his products on a stand of a direct exhibitor. Co-exhibitors at an exhibitor's stand or participants at a collective stand are also considered as exhibitors for statistical purposes if they exhibit their own goods employing their own personnel on the exhibitor's stand or at a common stand organised by a collective stand organiser and their autonomy can be undoubtedly recognized even without physical separation. These companies are considered as exhibitors regardless that the invoice is being issued on the exhibitor or on a collective stand organiser. The nature of the participation and the identity of each exhibitor at the stand should be very clear from the application form sent to the exhibition organiser.

Nationality of the exhibitor/co-exhibitor: foreign exhibitors and multinational companies are integrated under heading as international exhibitors (as well as space).

Visitors

The number of visitors is calculated on evidence. The number of paying visitors is established through financial evidence: number of sold tickets (prepaid or on the spot) and number of tickets/entry passes paid by the exhibitor or a third party. Visitors with paid passes for a given period are calculated on the basis of a financially reasonable minimum number of uses of the pass. 4 visitors are counted for each family ticket sold. For persons arriving with vouchers, registration cards or similar valid free passes, tickets can be counted as visitors only if evidence is available.

The number of foreign visitors is established either by tickets sold through special pre-registration means, or filled in-registration cards with evidence of the foreign origin of the visitor or through representative visitor surveys.

CLC-VECTA (The Netherlands)

Space

Net exhibition space: sum of booth space and any space utilized by the organiser for features that have a direct relation to the theme of the exhibition.

Exhibitors

Net exhibition space consists of the exhibitor stand area and space for special shows. Gross exhibition space consists of the net space plus the corresponding access and service areas.

DEFINITIONS

SOKEE (Greece) - UFI Rules

Space

Total net exhibition space: total floor space - indoors and outdoors - occupied by exhibitors. This is also called “contracted space” and may include both paid and unpaid space. It also includes space allocated to special shows having a direct relation to the theme of the exhibition.

Exhibitors

Only the exhibitors (“direct” exhibitors) are counted.

The main exhibitors are those bodies contracting directly with the organizer.

The co-exhibitors are those organizations/companies present on a main exhibitor's stand, with their own staff and their own products and/or services. They must be clearly identified via several means, e.g. mentioned on the application form of the main exhibitor or declared by an official coordinating body, or in the exhibition catalogue forms.

In the case of a collective participation, the space must be rented and paid for by the exhibitor organising the collective participation. The area is shared by several participants who are considered to be co-exhibitors if they occupy their own area, appear under their own name and present their own products/services by their own staff.

If each of these conditions is not fulfilled, they are considered as “represented companies” (“indirect” exhibitors) and may not be counted in the exhibitor tally.

The nationality of an exhibitor is determined by the address of the exhibiting company/organization as written on the contract with the organizer.

Visitors/Visits

The counting of visitors takes place only during the event's official opening hours when synchronous interactions with exhibitors can take place.

A visit is the action of a person who, on any official open day and hour, enters the event with an access document and who is representative of the market audience expected by the organizers and exhibitors.

Included in the calculation of “visits” are:

- persons who purchase their tickets at the event,
- persons who purchased their ticket before the event AND who attend the event,
- persons with a complimentary invitation or a reduced tariff ticket AND who attend the event,
- persons attending with a season ticket.

A person may only be counted once per day.

Excluded from the calculation of “visits” to an event are:

- staff of the exhibition venue and organizer,
- staff working for service providers,
- staff of exhibiting companies/organizations,
- speakers during the event,
- media representatives.

The visitor is counted only once for the entire duration of the fair, regardless of the number of visits.

A repeat visit is each additional visit of a visitor after the first visit that can be controlled. Here also only one visit per day is counted.

The “Nationality” is determined on the basis of a visitor's place of residence and must be stated on visitor registration forms with mention of the address abroad. Foreign or international visits are those visits by visitors of places of residence other than the country in which the event takes place (EU countries are counted as individual nations). If the event is only digital, the “country in which the event takes place” is that country which has the most visitors at the digital event. All other visitors are determined to be “international” visitors.

Numbers reported in this report relate to visits.

TOBB (Türkiye)

Space

The total rented space includes both hall space and open-air space contracted by the exhibitors, and based on the amount of space rented by the individual exhibitors. It includes the space rented for both national and foreign exhibitors.

The organiser has to fill and send a form of fair result report whose example shall be determined by the Union together with fair catalogue, a copy of fair contract, insurance policy and a document showing all insurance premium has been paid, the name list of direct or indirect foreign participants for international fairs to the chamber/commodity exchanges to which it has made its fair organizing application. The form includes total participant number, the rate and number of the foreign participants among all participants, distribution of direct or indirect foreign participants according to countries, total stand area allocated to participants, stand area allocated to the foreigners and its rate among total area, the total number of visitors, the rate and number of foreign visitors among all visitors, distribution of foreign visitors according to the countries and general evaluations of the organiser regarding the fair.

Visitors

Visitor numbers are calculated according to the number of tickets sold, number of complimentary tickets or electronic count at the tourniquets.
